Lypo-Spheric™ Delivery

Lypo-Spheric™ products use liposomes made from Phospholipids - the same material that makes up your cells - to encapsulate nutrients and maximize absorption. With our patented Lypo-Spheric™ delivery system, you get the benefit of the nutrients while satisfying the body's ever-growing need for Phospholipids, including Phosphatidylcholine (PC).

Liposome diagram shows how the tails of phospholipids turn inward to form a bilayer membrane and encapsulate the nutrient.
